## Product Description

---

### **ABOUT:**

Sunflower seeds, harvested from the flower heads of the sunflower plant (*Helianthus annuus*), are a popular and nutritious snack enjoyed around the world. Encased in a hard, tear-drop-shaped shell, these seeds have a tender texture and a mild, nutty flavor. They are also rich in antioxidants and phytochemicals, which contribute to their numerous health benefits. Consuming sunflower seeds can support heart health, due to their high content of unsaturated fats, and promote skin health. Additionally, they provide anti-inflammatory properties and can aid in blood sugar regulation. Sunflower seeds can be eaten raw, roasted, or incorporated into a variety of dishes, such as salads, granolas, and baked goods, making them a versatile and healthful addition to any diet.
