## Product Description

---

### **About:**

Areca plates, also known as palm leaf plates or betel leaf plates, are an eco-friendly and sustainable alternative to traditional disposable plates. These plates are crafted from the fallen leaves of the Areca palm tree, specifically the sheath of the leaf. Areca plates are entirely natural and decompose rapidly, making them an environmentally friendly choice. They can be disposed of in compost bins, contributing to a reduction in plastic waste.

Despite their lightweight and thin appearance, Areca plates are remarkably sturdy. They can withstand a variety of temperatures and are suitable for serving both hot and cold foods.
