Product Description

About:

The **fig** is the edible fruit of ***Ficus carica***, a species of small tree in the flowering plant family Moraceae, native to the Mediterranean. At first glance, figs may appear unremarkable, but it's when you take that first bite that their true magic unfolds.

sweet exterior, figs pack a substantial nutritional punch. They are rich in dietary fiber, which aids in digestion and helps maintain a feeling of fullness. Figs are also a good source of essential minerals such as potassium, magnesium, and calcium, all of which contribute to bone health and overall well-being. Figs have long been revered as a natural energy source. Their natural sugars, predominantly glucose and fructose, provide a quick and sustained energy release, making them an ideal snack for athletes and anyone needing a natural pick-me-up during the day.
