## Packaging, Shipping & Delivery

---

Packaging Details: 500 grams, 1 kg, 10 kg, 20 kg, 25 kg Packings  
Delivery Time: 5-6 Days After Payment

### **Packing:**

1. Customer Requirement

### **Loading port:**

1. Chennai ,Bangalore

### **Payment term :**

1. T/T (50 % Advance Rest 50 % Scan copy of BL)

## Product Description

---

### **About:**

Milk powder, also known as powdered milk or dried milk, is a versatile dairy product that undergoes a dehydration process to remove the moisture content from fresh milk. The result is a fine powder that retains the nutritional benefits and flavor of milk while offering extended shelf life and convenience.

Milk powder is typically produced through the process of evaporation and spray drying. Fresh milk is first evaporated to remove the water content, and then the concentrated milk is spray-dried into fine particles. Milk powder is a versatile ingredient used in various culinary applications. It is a key component in baking, making desserts, and preparing beverages. It adds richness and creaminess to recipes. One of the primary advantages of milk powder is its extended shelf life and ease of storage. It does not require refrigeration and can be stored for long periods, making it a convenient pantry staple.

### **Specification:**

Item	Value
Variety	Dairy
Product Name	Natural Milk Powder
Storage Type	Dry /Cool Place
Specification	Natty Flavour
Manufacturer	YAI
Ingredients	Natural Dairy Powder
Content	Caramel Milk Powder
Instruction for use	Human Consumption, Industrial use
Style	Dried
