Product Description

About:

Idly rice, also known as parboiled rice or idli rice, is a specific type of rice that is commonly used to make idli, a traditional South Indian dish. Idly rice is a type of rice that has gone through a partial boiling process before milling. This process, known as parboiling, involves soaking the rice, steaming it, and then drying it before removing the outer husk.

Idly rice grains are typically shorter and plumper compared to regular white rice. They are often pearly white or slightly yellowish due to the parboiling process. The grains may have a somewhat translucent appearance when cooked, contributing to the soft and fluffy texture of idli.
